DETAILED ACTION

In view of the fact that the instant application is a National Stage application, and in view of the arguments made in the response filed 5/22/03 as Paper No. 9, a new restriction requirement is made below. There is no species election requirement made in the restriction outlined below.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions that are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 54-94, drawn to recombinant nucleic acids comprising an enhancer element derived from intron 3 of the PSM gene, and methods of using the recombinant nucleic acid to express genes in a cell.

Group II, claim(s) 95-106, drawn to methods of treating prostate cancer.

Group III, claim(s) 95-106, drawn to methods of treating bladder cancer

Group IV, claim(s) 95-106, drawn to methods of treating breast cancer.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of Group I is the use of a prostate-derived enhancer element to express any given protein. The special technical feature for the treatment claims of Groups II-IV is the type of therapeutic nucleic acid that is expressed and the target it attacks in treating a particular kind of cancer.

Art Unit: 1636

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143)

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
